Hon Hai Precision Industry Co., Ltd. (hereinafter referred to as the “Group” or “the Company”) takes integrity, diligence, agility, sharing, cooperation and mutual honor as the common core values of the Group, based on the three characteristics of Hon Hai’s employees who have always been integrity, diligence and agility, and combines the three propositions of sharing, cooperation and mutual honor to help create economic growth under the vision of achieving corporate sustainable operation, fulfilling social citizenship responsibilities, and working together with global brand customers to create a comprehensive smart life and the enhance of human well-being.
Hon Hai’s operational or product areas. In terms of policy implementation, Hon Hai should on a continuous and constant basis compare its Global CoC policy with the provisions set by international organizations and local applicable laws. To ensure compliance with such provisions and laws, Hon Hai should honor the above principle as paramount in any version of the CoC policy and should work closely with local law-enforcement entities to close any gap between the released CoC policy and the current law. Any non-conformance with laws should be notified to customers together with continuous improvement plans so as to achieve industrial collaboration, improve capability building programs and establish industrial benchmarking.

Hon Hai is hence committed to ensuring that our business is in all respects conducted in conformance with ethical, professional and legal standards. With the aim of becoming a CSR compliant supply chain partner with customers, Hon Hai declares in its CoC policy to respect all industrial rules, applicable laws, human rights, environmental conservation, and safety of products and services in the countries and regions in which it operates, and to conduct its business activities in an honest and ethical manner. Simultaneously, Hon Hai’s downstream suppliers are required to comply with this CoC policy to the same level of standards which the supply-chain partners and industrial associations set for the ICT industry.

The company aims to create corporate resilience, competitive advantages, and become the most trusted and reliable partner of customers, suppliers, employees, shareholders, and relevant stakeholders, with the business concept of “upholding employee-oriented, adhering to integrity and respect, taking the world as the stage, and deeply developing sustainable management”, and the business principle of “continuous innovation and cooperation, achieving efficient operation, implementing the pursuit of quality, and concerning on labor and safety.”

As a member of the international business community and the RBA, Hon Hai Precision Industry Co., Ltd. (hereinafter also called “the Group” or “Hon Hai”) recognizes and is committed to social and environmental responsibility. The objective of the Group’s overall policy with regard to CSR is to provide a reference point to guide all Hon Hai global facilities, including all management and employees, on the elements that drive the conduct of Hon Hai’s business and relationships with the world in which it operates.

The companies covered by this Code of Conduct (hereinafter, “CoC”) include companies in Hon Hai Precision Industry Co., Ltd., and other legal entities, companies or any form of business organizations which are controlled by Hon Hai Precision Industry Co., Ltd. These include but are not limited to Hon Hai Technology Group Co., Ltd., Fu Taihua Industry (Shenzhen) Co., Ltd., Fu Taihong Precision Industry (Shenzhen) Co., Ltd., Hong Futai Precision Electronics (Yantai) Co., Ltd., Fu Taihua Precision Electronics (Chengdu) Co., Ltd., Hong Fujin Precision Electronics (Zhengzhou) Co., Ltd., etc., as well as subsidiaries of the aforementioned companies.

Codes set out in this CoC policy were derived from three disciplined sources which are: a) the member obligations of the industrial associations and the RBA of which Hon Hai is a member, and the international standard institutes to which Hon Hai’s business is related; b) the laws covering national regions where Hon Hai deploys operations; and c) the internal leadership of Hon Hai who determine voluntary upgrading of performance standards. Each source represents a different commitment level of Hon Hai’s promised delivery to the diverse stakeholders, which include Hon Hai’s employees, customers, suppliers, the community, investors, and non-governmental organizations.

In recognizing inherent discrepancies that may exist among the above three sources, Hon Hai pledges to live up to the most stringent rules based on whichever source determines a higher standard. On the policy level, none of Hon Hai’s documented codes should override local laws, and all the codes should defer substantially to any national and international organization whose provisions subsume

### PURPOSE

This CoC policy, for internal purposes, is to make CSR and Sustainability become part of the Group’s core competencies. For external purposes, this CoC is to demonstrate Hon Hai’s core values of global operation. Maintaining high standards for implementing the CoC policy is Hon Hai’s goal, to ensure continued customer trust in us and to enhance Hon Hai’s image as a competitive company in the industry in both business and CSR and Sustainability respects.

### RESPONSIBILITIES

This Code is to set up the standards which Hon Hai will support and be guided by in the conduct of its business. It determines the responsibilities of the Group’s functionaries and business groups
in substantiating the CoC principles. The Chairman of the Hon Hai Sustainability Committee and the promotion office of Hon Hai Sustainability Committee will monitor adherence to this CoC policy under the guidance of the Chairman. The teams responsible for sustainability of all business groups and subsidiaries are responsible for entrenching and monitoring compliance with this Code and providing feedback to Sustainability Committee regarding local practices contravening the CoC policy.

Meanwhile, Hon Hai Sustainability Committee continues to develop an internal validation audit mechanism to ensure conformance with and fulfillment of this CoC policy on the international scale in which Hon Hai operates. General managers of all business groups should require related management who are most tied to the local conditions and constraints to build capabilities in both CSR and Sustainability training and auditing knowledge to promote the audit mechanism. Hon Hai internal audits are carried out by using internal professional staff teams or by resorting to external third-party service institutes annually or quarterly as per the Group’s demands. Audits cover the areas of labor, ethics, environment, health and safety, and CSR and Sustainability management systems, which are required under the RBA standard.

This CoC policy applies to all sites of Hon Hai worldwide. Given that Hon Hai embodies all entities defined by both concepts of legal incorporation and business operations, the term “site” here refers to locations of any entities incorporated by companies or subsidiaries where Hon Hai possesses major shareholding and management operations. Hon Hai Precision Industry Co., Ltd., the parent company, is set as the top driver for the scope of this CoC policy; and the scope should not be limited to manufacturing entities, but also include all the various Hon Hai business units, companies and subsidiaries.

Failure to comply with this Code will be taken seriously and, depending upon the circumstances, could result in disciplinary action. To ensure that all business units around the world manage and conduct their business in line with the CoC policy, all business groups and subsidiaries will determine how this CoC policy impacts on their operations and report periodically. all business groups and subsidiaries are required by this CoC policy to report on their performance against this standard annually, submit corresponding improvement plans, and jointly work with Hon Hai Sustainability Committee on social and environmental events related to the matters specified in this CoC policy.

The CoC policy is founded on the basis of Hon Hai’s CSR and Sustainability philosophy and is composed of eight sections. Section one sets out Hon Hai’s standards relating to business ethics. Sections two, three, and four respectively detail the standards on labor and human rights, health and safety, and the environment. Section five specifies the elements of a minimally acceptable management system to enable conformity to this CoC policy. Sections six, seven, eight and nine state the Group’s policy on responsible sourcing of minerals, anti-corruption, anti-trafficked & forced labor, and community engagement which are mandated to be obeyed in the Group.
I. Ethics

To meet social responsibilities and to achieve sustainable development, Hon Hai upholds the highest standards of ethics.

1. Business Integrity
The highest standards of integrity are to be upheld in all business interactions. Hon Hai shall have a zero-tolerance policy to prohibit any and all forms of bribery, corruption, extortion and embezzlement. Any and all forms of corruption, extortion and embezzlement are strictly prohibited, and result in immediate termination of services and legal action.

2. Disclosure of Information
All business dealings should be transparently performed and accurately reflected on Hon Hai’s business books and records. Information regarding Hon Hai’s labor, health and safety, environmental practices, business activities, structure, financial situation and performance is to be disclosed in accordance with applicable regulations and prevailing industry practices. Falsification of records or misrepresentations of conditions or practices in the supply chain are unacceptable.

3. No Improper Advantage
Bribes or other means of obtaining undue or improper advantage are not to be promised, offered, authorized, given or accepted. This prohibition covers promising, offering, authorizing, giving or accepting anything of value, either directly or indirectly through a third party, including items such as cash or cash equivalents, entertainment, gift cards, product discounts, and non-business activities, in order to obtain or retain business, direct business to any person, or otherwise gain an improper advantage. Monitoring, record keeping, and enforcement procedures shall be implemented to ensure compliance with anti-corruption laws.

4. Fair Business, Advertising and Competition
Standards of fair business, advertising and competition are to be upheld.

5. Protection of Identity and Non-Retaliation
Programs that ensure the confidentiality, anonymity and protection of supplier and employee whistleblowers are to be maintained, unless prohibited by law. Anonymous complaints with clear and specific descriptions of person/time/place/event are to be accepted and protected. Hon Hai should have a communicated process for their personnel to be able to raise any concerns without fear of retaliation.

6. Intellectual Property
Intellectual property rights are to be respected; transfer of technology and know-how is to be done in a manner that protects intellectual property rights; and customer and supplier information is to be safeguarded.

7. Privacy
Hon Hai is committed to protecting the reasonable privacy expectations of personal information of everyone we do business with, including suppliers, customers, consumers and employees. Hon Hai is to comply with privacy and information security laws and regulatory requirements when personal information is collected, stored, processed, transmitted, and shared.

II. Labor and Human Rights

Hon Hai is committed to upholding the human rights of workers, and to treat them with dignity and respect as understood by the international community. The company establishes effective grievance mechanism in order to protect labor rights better and adopt remedy and corrective actions in time. This applies to all workers including temporary, migrant, student, contract, direct employees, and any other type of worker.

The recognized standards such as the Universal Declaration of Human Rights (UDHR), the International Labor Organization (ILO) and the Ethical Trading Initiative (ETI) have been used as references in preparing this Code.

1. Freely Chosen Employment
Forced, bonded (including debt bondage) or indentured labor, involuntary or exploitative prison labor, slavery or trafficking of persons is not permitted. This includes transporting, harboring, recruiting, transferring or receiving persons by means of threat, force, coercion, abduction or fraud for labor or services. There shall be no unreasonable restrictions on workers’ freedom of movement in the facility in addition to unreasonable restrictions on entering or exiting company-
Code of Conduct

2. Child Labor Prohibition and Young Workers Protection

Child labor is not to be used in any stage of manufacturing. The term “child” refers to any person under the age of 15, or under the age for completing compulsory education, or under the minimum age for employment in the country, whichever is greatest. Hon Hai shall implement an appropriate mechanism to verify the age of workers. Workers under the age of 18 (Young Workers) shall not perform work that is likely to jeopardize their health or safety, including night shifts and overtime. Hon Hai shall ensure proper management of student workers through proper maintenance of student records, rigorous due diligence of educational partners, and protection of students’ rights in accordance with applicable law and regulations. Hon Hai shall provide appropriate support and training to all student workers. In the absence of local law, the wage rate for student workers, interns and apprentices shall be at least the same wage rate as other entry-level workers performing equal or similar tasks. If child labor is identified, assistance or remediation is provided.

3. Protection of Maternity Rights and Health of Female Workers

Hon Hai is committed to protecting female workers’ rights and health. Health protection at work, maternity leave, social benefits, breast-feeding breaks, and protection against dismissal and discrimination based on maternity should be provided. It is unlawful to terminate the employment of a female worker during her pregnancy or absence on maternity leave. Female workers shall be entitled to have a period of maternity leave of no less than the legal requirement. A woman is guaranteed the right to return to the same or equivalent position paid at the same rate at the end of her maternity leave. Reasonable steps must also be taken to remove pregnant women/nursing mothers from working condition with high hazards, remove or reduce any workplace health and safety risks to pregnant women and nursing mothers including those associated with their work assignments, as well as include reasonable accommodations for nursing mothers.

4. Non-Discrimination and Non-Harassment

Hon Hai is committed to a workforce free of harassment and unlawful discrimination. Hon Hai shall not engage in discrimination and harassment based on race, color, age, gender, sexual orientation, gender identity and expression, ethnicity or national origin, disability, pregnancy, religion, political affiliation, union membership, covered veteran status, protected genetic information or marital status in hiring and employment practices such as wages, promotions, rewards, and access to training. Workers shall be provided with reasonable accommodation for religious practices. In addition, workers or potential workers should not be subjected to medical tests, including pregnancy or virginity tests, or physical exams that could be used in a discriminatory way.

5. Humane Treatment

There is to be no harsh and inhumane treatment including violence, gender-violence, any sexual harassment or other harassment, sexual abuse, corporal punishment, mental or physical coercion, bullying, public shame or verbal abuse of workers; nor is there to be the threat of any such treatment. Disciplinary policies and procedures in support of these requirements shall be clearly defined and communicated to workers.

6. Wages and Benefits

Compensation paid to workers shall comply with all applicable wage laws, including those relating to minimum wages, overtime hours and legally mandated benefits. In compliance with local laws, workers shall be compensated for overtime at pay rates greater than regular hourly rates. Deductions from wages as a disciplinary measure shall not be permitted. For each pay period, workers shall be provided with a timely and understandable wage statement that includes sufficient information to verify accurate compensation for work performed. All use of temporary, dispatch and outsourced labor will be within the limits of the local law.
1. Machine Safeguarding

Safety risks and hazards should be identified and assessed on production machinery and other machinery. Physical guards, interlocks and barriers are to be provided and regularly tested and maintained where machinery presents an injury hazard to workers. Safety protection devices should be able to provide protection for machine operator, non-operating employees and employees responsible for repair, maintenance and debugging. All machinery and equipment in the workplace should have safe operating procedures, safety warning signs and risk notification cards, and employees should be trained to ensure their understanding.

2. Industrial Hygiene

Worker exposure to chemical, biological and physical agents is to be identified, evaluated, and controlled according to the hierarchy of controls. If any potential hazards were identified, participants shall look for opportunities to eliminate and/or reduce the potential hazards. If elimination or reduction of the hazards is not feasible, potential hazards are to be controlled through proper design, engineering and administrative controls. When hazards cannot be adequately controlled by such means, workers are to be provided with and use appropriate, well-maintained, personal protective equipment free of charge. Protective programs shall be ongoing and include educational materials about the risks associated with these hazards. Change management procedures should be established when there is changing existing process, introducing production line, or producing new product, and measures should be taken to prevent new occupational hazards from the change.

3. Occupational Safety

Worker potential for exposure to health and safety hazards (e.g., chemical, electrical and other energy sources, fire, vehicles, and fall hazards) are to be identified and assessed, and mitigated using the Hierarchy of Controls, which includes eliminating the hazard, substituting processes or materials, controlling through proper design, implementing engineering and administrative controls, preventative maintenance and safe work procedures (including lockout/tagout), and providing ongoing occupational health and safety training. Where hazards cannot be adequately controlled by these means, workers are to be provided with appropriate, well-maintained, personal protective equipment, and educational materials about risks to them associated with these hazards.

4. Emergency Preparedness

The company shall set up equipment and facilities to prevent the expansion of disaster accidents according to the requirements of the local government, such as fire monitoring and automatic fire extinguishing facilities. Equipment and facilities shall be well maintained and functioning properly. The company also should formulate disaster emergency rescue plans and disposal plans. Potential emergency situations and events are to be identified and assessed, and their impact minimized by implementing emergency plans and response procedures including emergency reporting, employee notification and evacuation procedures, worker training and drills, appropriate fire detection and suppression equipment, clear and unobstructed egress, adequate exit facilities, information for
IV. Environment

All activities of Hon Hai shall be carried out with respect for the environment. Hon Hai’s three main areas of environmental impact are products, campus sites, and ecology. The first two areas are accounted for in our following codes and implementation guidelines, whereas the third area is concerned with developing programs in accordance with the CoC policy on the environmental protection. Recognized management systems such as ISO14001 and the Eco Management and Audit System (EMAS) have been used as references in preparing this Code and may be a useful source of additional information.

1. Environmental Permits and Reporting

All required environmental permits (e.g., discharge permits), approvals and registrations are to be obtained, maintained and kept current and their operational and reporting requirements are to be followed.

2. Materials Restrictions

Hon Hai is to adhere to all applicable laws, regulations and customer requirements regarding prohibition or restriction of specific substances in products and manufacturing, including labeling for recycling and disposal.

3. Hazardous Substances

Chemicals, waste and other materials posing a hazard to humans or the environment are to be identified, labeled and managed to ensure their safe handling, movement, storage, use, recycling or reuse and disposal.

4. Solid Waste

Hon Hai shall implement a systematic approach to identify, manage, reduce, and responsibly dispose of or recycle solid waste (non-hazardous).

5. Air Emissions

Air emissions of volatile organic chemicals, aerosols, corrosives, particulates, ozone depleting substances and combustion by-products generated from operations are to be characterized, routinely monitored, controlled and treated as required prior to discharge. Ozone-depleting substances are to be effectively controlled...
managed in accordance with the Montreal Protocol and applicable regulations. Hon Hai shall conduct routine monitoring of the performance of its air emission control systems.

6. Boundary Noise Management
The company shall identify, control, monitor, and reduce noise generated by the facility that affects boundary noise levels.

7. Pollution Prevention and Resource Reduction
Emissions and discharges of pollutants and generation of waste are to be minimized or eliminated at the source or by practices such as modifying production, maintenance and facility processes, or by other means. The use of natural resources, including water, fossil fuels, minerals and virgin forest products, is to be conserved or by practices such as modifying production, maintenance and facility processes, materials substitution, re-use, conservation, recycling or other means.

8. Water Management
Hon Hai shall implement a water management program that documents, characterizes, and monitors water sources, use and discharge; seeks opportunities to conserve water; and controls channels of contamination. All wastewater is to be characterized, monitored, controlled, and treated as required prior to discharge or disposal. Hon Hai shall conduct routine monitoring of the performance of its wastewater treatment and containment systems to ensure optimal performance and regulatory compliance. Meanwhile, the company shall prevent illegal discharges and spills from entering storm drains, the public water supply, or public bodies of water.

Hon Hai is to establish a corporate-wide energy consumption and greenhouse gas reduction goal. Energy consumption and all relevant greenhouse gas emissions are to be tracked, documented, and publicly reported against the greenhouse gas reduction goal. Hon Hai is to look for cost-effective methods to improve energy efficiency and to minimize energy consumption and greenhouse gas emissions.

V. Management systems
Hon Hai has established management systems whose scopes are related to the content of this Code. The management systems shall be designed to ensure (a) compliance with applicable laws, regulations and customer requirements related to suppliers’ operations and products; (b) conformance with this Code; and (c) identification and mitigation of operational risks related to this Code. The management systems should also facilitate continual improvement.

Hon Hai’s requirements on management systems include:

1. Company Commitment
A corporate social and environmental responsibility policy statements affirming Hon Hai’s commitment to compliance and continual improvement, endorsed by top management and posted in the facility in the local language.

2. Management Accountability and Responsibility
Clearly identify company representatives responsible for ensuring implementation and periodic review of the status of the CSR management systems. Executives review the status of the management systems on a regular basis.

3. Legal and Customer Requirements
A process to identify, monitor and understand applicable laws, regulations and customer requirements, including the requirements of this code.

4. Risk Assessment and Risk Management
A process to identify the legal compliance, environmental, health and safety and labor practice and ethics risks associated with Hon Hai’s operations. Determination of the relative significance for each risk and implementation of appropriate procedural and physical controls to control the identified risks and ensure regulatory compliance.

5. Improvement Objectives
Written performance objectives, targets and implementation plans to improve Hon Hai’s social, health and safety, and environmental performance, including a periodic assessment of Hon Hai’s performance in achieving those objectives.

6. Training
Programs for training managers and workers to implement policies, procedures and improvement objectives. Core curriculums such as orientation training and CSR CoC training should be arranged for new employees, and employees in service should take at least two hours of CoC training per year.

7. Communication
Processes for communicating clear and accurate information about Hon Hai’s policy, performance, practices and expectations to workers, suppliers and customers.
8. Worker Feedback, Participation and Grievance
Ongoing processes, including an effective grievance mechanism, to assess workers’ understanding of and obtain feedback on or violations against practices and conditions covered by this Code and to foster continuous improvement. Workers must be given a safe environment to provide grievance and feedback without fear of reprisal or retaliation.

9. Audits and Assessments
Periodic self-evaluations to ensure conformity to legal and regulatory requirements, the content of the Code, and customer contractual requirements related to social, health and safety, and environmental responsibility.

10. Corrective Action Processes
A process for timely correction of deficiencies identified by internal and external assessments, inspections, investigations and reviews.

11. Documentation and Records
Creation and maintenance of documents and records to ensure regulatory compliance and conformity to company requirements along with appropriate confidentiality to protect privacy.

12. Supplier Responsibility
A process to communicate Code requirements to suppliers and to monitor supplier compliance to the Code.

VI. Responsible Sourcing of Minerals
Hon Hai adheres to international standards and governmental and non-governmental regulations on conflict minerals. Hon Hai does not accept, and does not use, conflict minerals in our operations. Hon Hai requires suppliers to trace the origin of products potentially containing conflict minerals, including gold (Au), tantalum (Ta), tin (Sn), and tungsten (W), and to provide all relevant information regarding the sources of those minerals to our company. In addition, Hon Hai’s suppliers are required to fulfill their due diligence on conflict-free minerals pursuant to the relevant international standards and regulations, such as Organization for Economic Co-operation and Development (OECD) Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas or an equivalent and recognized due diligence framework.

VII. Anti-Corruption Policy
Hon Hai upholds a corporate culture of dignity and integrity. Hon Hai is committed to full compliance with local and international anticorruption and antibribery laws and regulations. Corruption, bribery, embezzlement or improper activities are strictly prohibited. Hon Hai has a zero-tolerance policy towards activities or behaviors that are in violation of the anti-corruption policy. All employees are inducted with at least two hours of compulsory anti-corruption training every year. In addition, all partnerships with suppliers, vendors and customers must strictly comply with the anti-corruption policy.

VIII. Anti-Trafficked & Forced Labor
Hon Hai hereby declares that it does not engage in or accept human trafficking and does not use or support the use of forced labor as stipulated in Forced Labor Convention (No. 29). These include the use of threats, compulsion, coercion, abduction, fraud, or payment of compensation to anyone controlling another person to transport, hide, recruit, transfer, or receive personnel for the purpose of exploitation. The company shall not require employees to pay any deposit or hold original identification documents of employee during employment.

IX. Community Engagement
Hon Hai is committed to help foster social and economic development and to contribute to the sustainability of the communities in which it operates.

ENFORCEMENT OF THE CoC POLICY
The CoC policy approved by the Hon Hai Sustainability Committee Chairman will be defined as an ethical commitment that includes basic principles and standards for the appropriate development of relations between Hon Hai and its main stakeholders (employees, customers, shareholders, suppliers, the community, investors, and non-governmental organizations). The spirit and guidance embodied in the standards of business conduct policy must be followed by all our employees, in particular by our managers across our businesses to set an example for others to follow. Business groups must provide annual assurance that the CoC policy is being adhered to within their business operations.
The corporate and business group management also needs to roll out the approved CoC policy to our employees. This should take place in a variety of ways, reflecting the different cultures and sizes of our businesses around the world. Employees’ rights, the Code requirements, and expectations documented in this CoC policy should be communicated to all staff through employees’ labor contracts, employees’ handbooks, and other channels which convey the need for effective and exact implementation of and adherence to this CoC policy.

Hon Hai should also perform auditing and benchmarking, and design programs as validation instruments for ongoing training and awareness of candid execution of the CoC policy. The CSR and Sustainability programs to substantiate CSR and Sustainability policy should employ a comprehensive audit protocol, which is designed to assess performance at Hon Hai’s international sites and yield a standardized scorecard system to establish a baseline for tracking improvements and making comparisons with peer companies. Furthermore, it is considered that any deployed system should provide for complaints and suggestions from our ground operations, and therefore whistle-blowing mechanisms and grievance channels must be established in order to seek improvements. By formally documenting and revising this CoC policy, Hon Hai aims for continuous organizational improvement and innovative governance practices.

Hon Hai is devoted to sustainable development and an all-win outcome for stakeholders with the following public statements and progress benchmarks:

Commitment to corporate citizenship of sustainable business for all stakeholders.

Integration of economic bottom line with social and environmental performance to protect corporate reputation and public image.

Transparency of information and disclosure to interest holders.

Alignment of communication with industrial partners for best CSR and Sustainability practices, risk management, and media crisis handling.

Incorporation of CSR and Sustainability principles into Hon Hai’s culture and daily business operations.

To continue Hon Hai CSR Committee as Hon Hai’s global CSR strategic driver and tactical mechanism for CSR and Sustainability.

To produce an annual GRI and SASB-compliant Sustainability report and deliver Hon Hai’s CSR and Sustainability value propositions and achievements.

To enforce Hon Hai global policy for international establishments across customer groups, business units and suppliers; and

To conduct periodic self-audit programs and implement self-audit actions, make corrective action plans, and timely feedback to customers about our improvements; and to establish a standard mechanism for better interacting with customers.

Hon Hai Technology Group
